

Applicant: Sezgin et al.
Application No.: 10/695,276

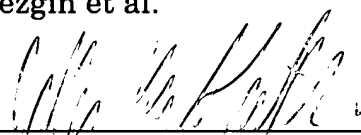

REMARKS

The Abstract was objected to as including the word "comprises" and "said". The new Abstract does not have that language. The Information Disclosure Statement (IDS) filed October 23, 2003 was not considered. However, the references cited in that IDS as indicated thereon were cited in the parent application and accordingly, Applicants are not required to resubmit them. However, if the Examiner desires a copy, please advise us accordingly. Since claims 1-7 have been cancelled, the claim objections and the 35 U.S.C. § 101 rejection is now moot. The new claims are drawn to a method, TDD base station and TDD user equipment and, accordingly, Applicants respectfully submit that they meet the requirement of 35 U.S.C. § 101.

Reconsideration and entry of this amendment is respectfully requested.

Respectfully submitted,

Sezgin et al.
